

REMARKS

Claims 1-18 were pending when last examined. With this Response, Applicants cancel Claims 1-18 without prejudice or disclaimer, and add new Claims 19-34. All pending claims are shown in the detailed listing above.

Specification

According to the Examiner, “The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.”

Claims 1-18 have been cancelled without prejudice or disclaimer. New Claims 19-34, which are added with this Response, have Claims 19 and 28 as the only independent claims. Claims 19 and 28 recite in pertinent part “A system for application sharing” or “A method for application sharing,” respectively. As such, the title of the present Application—i.e., “Distributed Application Sharing”—is descriptive.

Claim Objections

Claims 6, 12, 18 stand objected to because of various alleged informalities.

Applicants have cancelled Claims 6, 12, and 18, thereby rendering moot these objections.

Claim Rejections – 35 USC § 102

Claims 1-18 stand rejected under 35 U.S.C. 102(e) as being anticipated by Salesky et al. (US Patent No. 6,343,313).

Applicants have cancelled Claims 1-18 with this Response, thereby rendering moot the rejection of these claims under 35 U.S.C. § 102(e).

New Claims

New Claims 19-34 have been added with this Response to further define Applicants' invention. Applicants respectfully submit that new Claims 19-34 are fully supported by the Application as filed, add no new matter, and are allowable over the prior art of record.

CONCLUSION

Applicants respectfully request that the pending claims be allowed and the case passed to issue. Should the Examiner wish to discuss the Application, it is requested that the Examiner contact the undersigned at (415) 772-1200.
